GSA 4795-63
5 September 1963

MEMORANDUM FOR THE RECORD:

SUBJECT: Intercommunication Systems - Preliminary
Survey Concerning

1. At the request of ⬜⬜⬜⬜ the writer conducted a   25X1A
preliminary survey on the subject system. The following
information is pertinent:

2. All requests for intercommunication systems
are to be made to the DD/S through the Logistical
Services Division, Telephone Facilities Branch, Office
of Logistics. Contact in Logistical Division is ⬜⬜⬜   25X1A

25X1A

3. There are two routes available for the in-
stallation of intercommunication equipment:

(1) Lease of telephone company furnished
equipment.

The system consists of additional circuitry
and control buttons to the standard desk instru-
ment. A maximum of 36 customers can be serviced
on one system. Calls are made between customers
by dialing two digits. A maximum of 4 instruments
can be occupied simultaneously. Cost of system
is $20 plus $110 per month for a 36 station
system. Maintenance of the system is absorbed in
standard telephone service.

(2) Purchase of commercial intercommunication
equipment.

Numerous systems are available and can be
configured as multiple masters or masters with
slaves to cover specific requirements. Master
systems such as these manufactured by Bogen or
Talk-A-Phone can be procured for approximately
$125 per station for up to 30 stations on a
system. Slave stations are available for $27 each.
Instruments have no connection with standard
telephone. Installation and maintenance to be
handled separate from standard telephone maintenance.
